# Sights Around Schuylkill

**Schuylkill Living Magazine highlights an article on Mahjongg, a Chinese tile game, which is played at SCC every Tuesday. Pictured on the cover is Sandi Schreffler, SCC member.**

Chef Kurt was born in nearby Pottsville PA, but grew up on the west coast in Washington State. Kurt's family returned to

Pottsville when he turned 13. Kurt grew up influenced by a "cooking family" including his mother, sisters and even his uncles. But Kurt began his cooking career in his teen years simply to finance his first car through part-time restaurant jobs.

**Joe Jurgielewicz & Son , Ltd. recently posted an article featuring Chef Kurt and Schuylkill Country Club. The full article can be found on Schuylkill Country Club's Facebook page.**

**SCC will also feature a Duck Night on June 21<sup>st</sup> using Joe Jurgielewicz & Son, Ltd. products.**

**Schuylkill Chamber of Commerce Leadership Council recently held their roundtable discussion at SCC**

6 - 7:30 p.m.

**Wine & Golf on the Course**

Bring a friend! 570.366.0733

## Wes's Words of Wisdom

This month on the lesson tee, I have had a lot of golfers struggling to make “first Ball” contact. If this sounds like you, here is a drill that may help your cause. Practice hitting iron shots off of a downhill lie. This practice method will teach you to “lag the club”, thus producing a later club release. Secondly, this practice method will help get your weight off of your back foot, which also promotes a descending blow. If you have questions, please come and talk with me in the Golf Shop.

### **The What and Why of Aeration**

Aeration involves perforating the soil with small holes to allow air, water and nutrients to penetrate the grass roots. Aeration is designed to let golf course grass breathe and stretch out a little bit. It is designed to control dying grass and grass parts, while loosening compacted soil and allowing water to flow better underground. By having compacted, poor-performing or dead grass parts in the soil, the healthy turf can struggle to grow and develop strong roots. Compacted soil, created from foot traffic, weather and other factors, reduces oxygen levels in the soil and can inhibit water getting to turf roots. All of this compacting and organic matter can also make for a softer golf course because it is unable to drain water and push new turf to the surface.

May 14<sup>th</sup> and 15<sup>th</sup> we aerated the greens. Pictured to the left is the Toro ProCore 648. This machine is crucial in getting air flow to the roots, helping the greens breathe and creating a healthy, more enjoyable playing surface.

---

## **SCC GAP Team**

Through April and early May, Schuylkill CC once again competed in the Golf Association of Philadelphia's team matches. This year, because of great member interest we were able to field two men's teams and one women's team. Our ladies' team has been very competitive, currently standing at 1-1 with one more match to play. Best of luck ladies!

On the men's side, we had 2 teams competing, our first team is in the A division, our second team is in the C division. There are 7 divisions in the men's format, ranging from AA, A, B, C, D, E and F, respectively. Our second team was very competitive in the C division, playing 3 very close matches. I am proud to announce our first team won their A division with a 2-1 record. By winning your division in A, you are able to “challenge” a AA team for their spot. Unfortunately, Schuylkill I fell short to Glenmaura National I in the challenge match. However, by winning the division, Schuylkill will remain in the A division in 2019. This is Schuylkill's first A division title in our Club's history, placing our 1<sup>st</sup> team in the top 24 teams in the 332 team field. Congratulations to all the men and women of Schuylkill who participated!

Wednesday, June 27th  
 5:30 Pizza  
 6:00 Movie  
 Ages 6 and up  
 \$10 per child
