6/8-Junior Golf Camp/All Levels

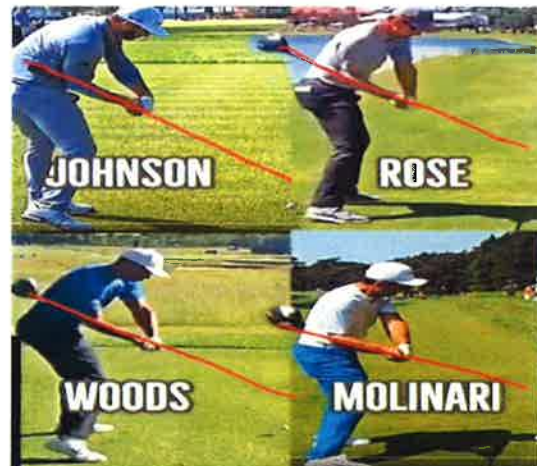

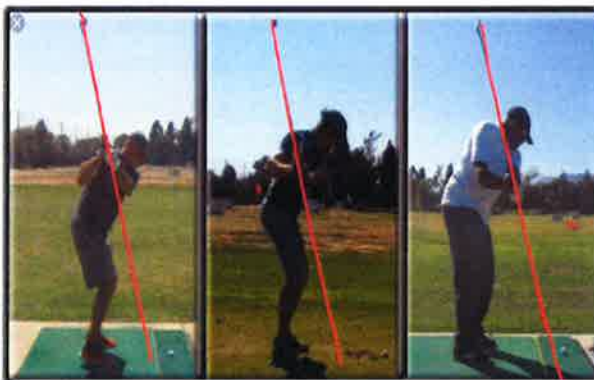

15-Junior Golf School/Intermediate & Advanced Levels

With the excellent camera quality on today's cellphones, it's easier than ever to record your golf swing. Next time you're hitting balls on the range, grab a friend and ask them to record a video in slow motion. If your downswing looks similar to the swings on the left, you need some help with your swing. Those three swings are very similar and look like the swings I commonly see on our range every day. The red line on the pictures represents a very steep downswing with the shaft of the golf club pointing between the feet and golf ball. This steep position leads to all sorts of problems that can negatively impact your swing. If you look at pictures on the right, you'll see some of the best players in the world coming down to strike the golf ball. See the difference? Start getting your shaft in this position and I guarantee you will hit longer and straighter golf shots.

## Tee to Green

*Another month has come and gone here at the Schuylkill Country Club. Despite the unpredictable weather the grounds crew had another productive month on the course and around the clubhouse. May was a month filled with edging bunkers, mulching, and keeping up with the grass.*

*As well roll into June we look forward to the return of the warmer weather and lots of sun filled days. With a little cooperation from mother nature we expect another great year here at the SCC. Between the completion of our new pool and the many upcoming golf tournaments we can't wait to see all our members enjoying our facilities all summer long.*

## Welcome New Members
